

## **TEAM-17 - SAATHI**

### **Saathi\_Prototype\Readme:**

You are currently viewing Saathi\_Prototype\Readme.pdf

- Saathi\_Prototype\Circuit.fzz  
Circuit.fzz can be opened using [fritzing](#) where a breadboard view, a Schematic and a PCB view can be seen.
- Saathi\_Prototype\Circuit.png
- Saathi\_Prototype\PCB.png
- Saathi\_Prototype\Schematic.png
- Saathi\_Prototype\Firmware  
This directory contains all the required libraries for the Arduino Nano to interface with the sensors and other modules used in the prototype.
- Saathi\_Prototype\Firmware\Firmware.ino  
Firmware.ino is an interactive test code written on the [Arduino IDE](#). You can simply open the Firmware.ino file using the Arduino IDE and it will automatically initialize the libraries present in the same directory.
